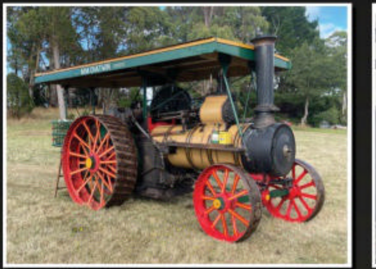
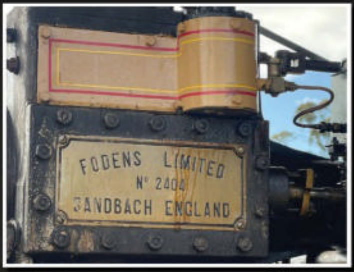
FODENS LTD 1911 TRACTION ENGINE - LIVESTREAM AUCTION

Wednesday 26th April at 7:00pm (AEST)





The engine was owned by Sydney Smith for 40 years using the engine for chaff cutting and thrashing. The engine was then sold to E. Connell who used the engine to drive a Saw Mill at Dove Lake, Tasmania cutting King Billy Pine.

Max states the engine has always been well maintained, steamed regularly and was last in survey around 25 years ago. The engine was a special build for Tasmania by Foden, England and has a rare 11 inch stroke and is an 8hp. Videos, taken Wednesday 1st March 2023 and photos taken on the same day. Engine is located at Sprent, Tasmania - 30 days for collection - **Inspection by appointment - Ashley Burns: 0408618294**

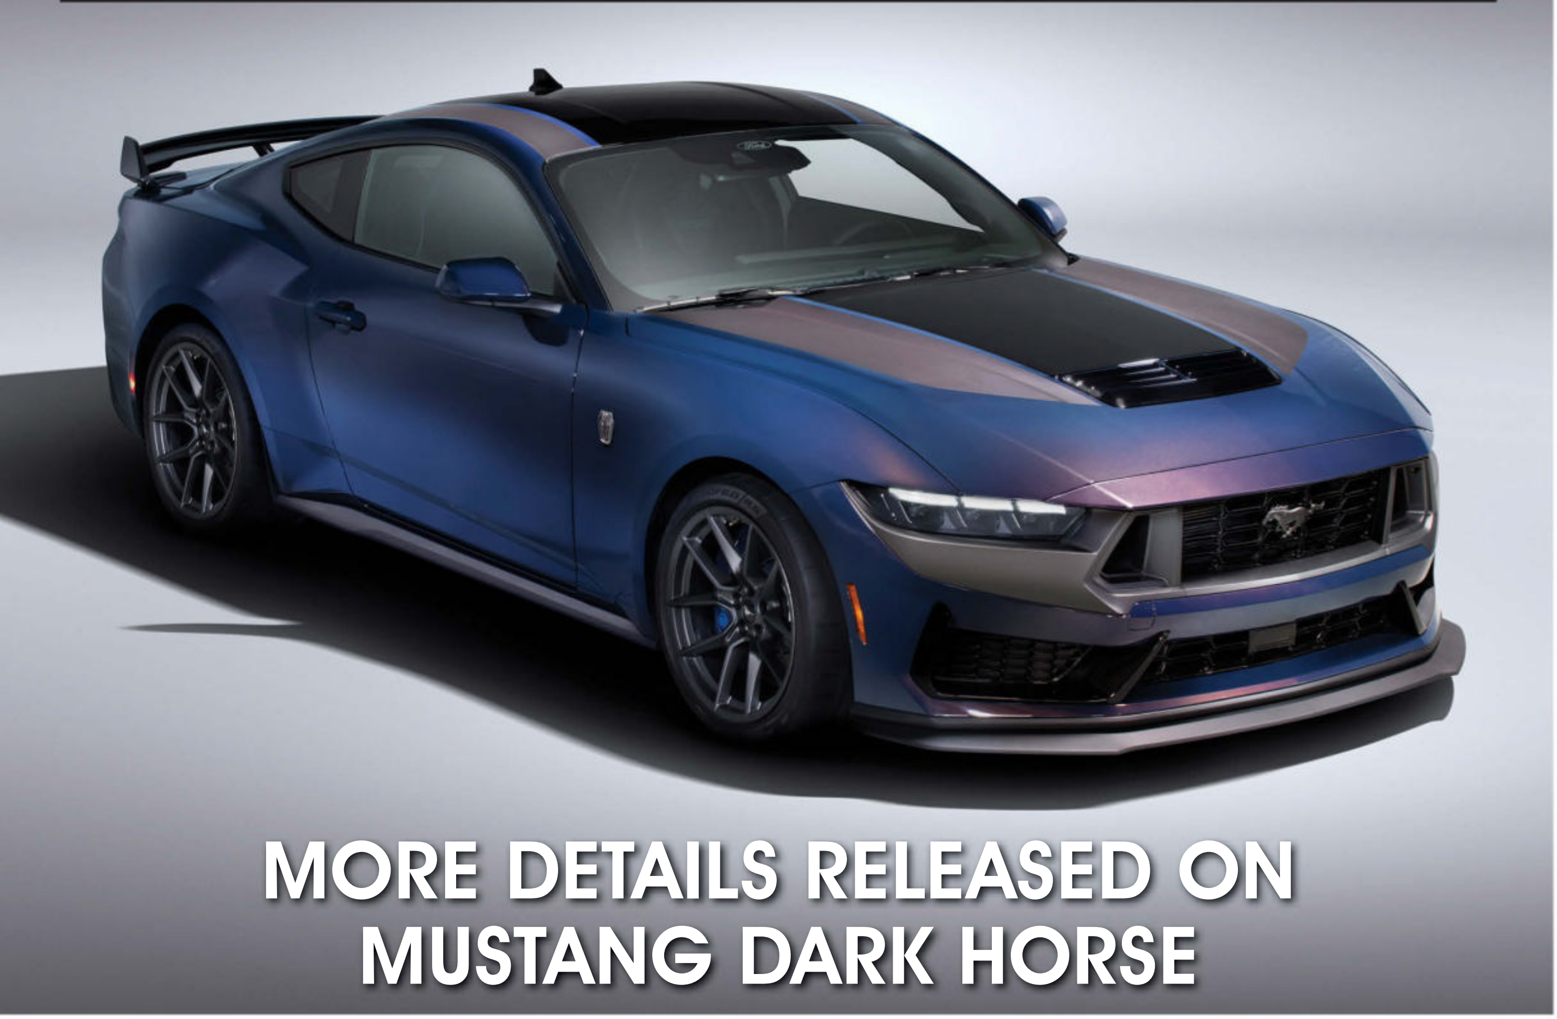
A combined building and contents policy constitutes one risk for the purposes of this Competition. Customers that do not wish to participate in the Competition can email enquiries@shannons.com.au. Full T&Cs at shannons.com.au/goodwood. Call 13 46 46 to opt out and manage your marketing preferences (if you opt-out you will no longer be eligible to win this Competition).



MORE DETAILS RELEASED ON MUSTANG DARK HORSE

Premium MY24 Mustang variant to feature Blue Ember colour-shifting metallic paint, multiple striping options and Indigo Blue interior accents.

Ford have announced more details for the 2024 Mustang Dark Horse, with the premium variant of the upcoming seventh-generation Mustang to be available with a special paint finish and interior detail options.

According to Ford, these “dark aura and digital-age style” touches amplify the track-handling precision of the 2024 Mustang Dark Horse.

“The sinister and track hungry attitude of the Mustang Dark Horse inspired us to curate colours and materials in a way that underscores the vehicle’s athleticism,” said Carrie Kennerly, Ford senior colour and materials designer.

Titanium shift knob has a blue anodised finish.

“We spent extra time on the cockpit, ensuring the look, feel and function of everything a performance driver could want conveys the performance Mustang Dark Horse is capable of.”

BLUE EMBER PAINT

With the goal of giving the upcoming Mustang Dark Horse an exterior colour reflective of its name, the result was ‘Blue Ember’ metallic.

Described as shadowy and sinister, but complex enough to force a double take on the street, the smoky dark blue shade features special effect pigments – deep blue infused with warm amber – to give the finish a colour shift effect when viewed from certain angles and under different lighting.

“If colour is a reflection of a vehicle’s personality, Blue Ember transforms the Mustang Dark Horse and highlights a natural saddle-colour horse hidden inside the strong, chiselled fastback’s exterior form,” Kennerly explained.

“Multiple elements are combined to give Blue Ember its intriguing and stealthy appearance that really drives home how unique Mustang Dark Horse is.”

Developed by the ‘Ford Color Mastering’ team, Blue Ember mixes complementary colours that are opposite each other on the colour wheel. The aforementioned special effect pigments are used in a higher volume than other paints to enhance the colour by reflecting light to create a “striking amber highlight” that’s looks different throughout the day’s varying light.

Available separately or in conjunction with the Blue Ember paint, striping options

Recaro sports seats, specially-trimmed in suede and leather, will be optional.

Along with the special paint, multiple striping options will be available for the Dark Horse.

will also be offered when the Mustang Dark Horse is released.

A vinyl graphic decal for the Dark Horse bonnet will be available in Tarnished Dark satin or gloss black, to match other Dark Horse-specific exterior trim parts in black.

As part of the Appearance Package, an additional specialised bonnet graphic ties in with the central decal and the Dark Horse's black roof. A third decal in low gloss black will also be available.

There's also a hand-painted stripe option that's applied using a specialised process different from any other Mustang trim level, according to Ford.

Inspired by the forms of airflow over the car, this stripe is in gloss black, starting aft of the air extractor on the bonnet and running back to the bonnet's trailing edge, then over the roof and on to the rear spoiler. On the flanks of this gloss black central stripe, Tarnished Dark elements are added.

"ATHLETIC" INTERIOR

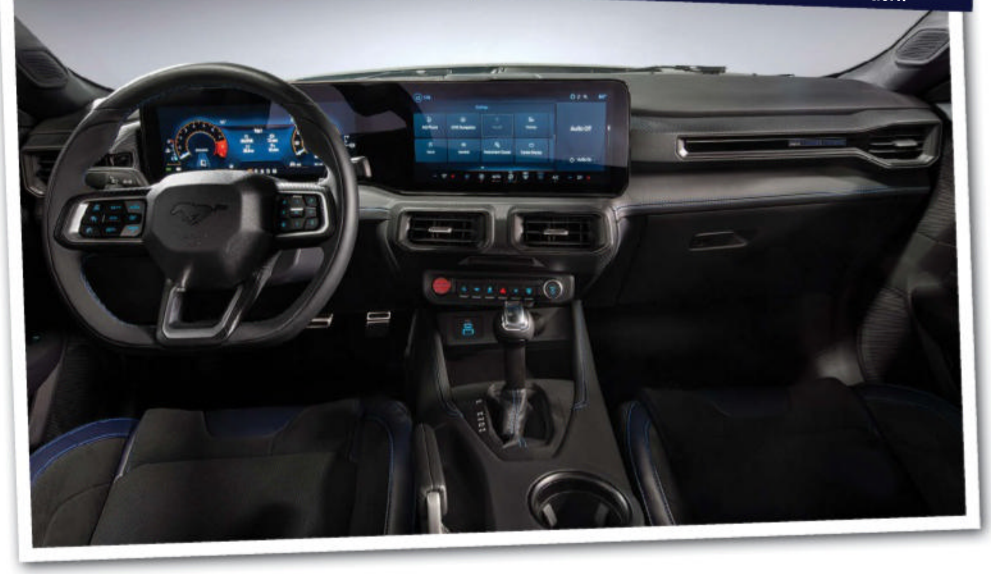
Standard interior features on the Dark Horse include a flat-bottom steering wheel, wrapped in suede for improved grip and finished with contrasting Bright Indigo Blue stitching that's also applied to the leather-trimmed doorcards, dash and centre console, as well as the shifter boot for manuals.

The steering wheel carries controls for the Dark Horse's drive modes and buttons to adjust the 12.3-inch instrument screen and 13.2-inch SYNC 4 centre console infotainment screen that sits high on the dash and is angled toward the driver.

New surface treatments in the cabin cut down on high gloss finishes and include a 'Black Alley' dark metallic gloss in place of the bright silver shade applied to other Mustang trim levels. On items like the vent surrounds and selected parts of the dash, centre console and doorcards, a carbon fibre pattern replaces previous grained treatments and 'animal skin' designs.

Furthermore, lasers have been used to create a grain on top of the instrument panel as part of the "de-glossing" of the cabin, with textures on the leather, suede and vinyl surfaces that amplify the Mustang Dark Horse's performance feel, according to Ford.

Dark Horse interior features carbon fibre trim and a plaque with the chassis number on the dash.



Other cabin items introduced with the Mustang Dark Horse include a titanium shifter knob with the six-speed manual that's hollow (reportedly to reduce heat build-up) and has a blue anodised finish to match the cabin stitching. On versions of the Dark Horse with the ten-speed auto, the paddle shifters have an anodised silver finish.

When the optional drift brake is fitted, that comes with an anodised lever, too, and a leather boot with the same Bright Indigo Blue stitching as the rest of the cabin.

Also optional are Recaro performance seats. Offered as part of the Mustang Dark Horse Appearance Package, these sports seats are trimmed in black Dinamica suede in the centre, with Deep Indigo Blue leather on the bolsters. The seats also come with Bright Indigo Blue stitching, while the seatbelts are in Deep Indigo Blue.

Finally, while it's not a limited edition in the 2024 Mustang lineup, every Dark Horse will carry a dash plaque with the vehicle's chassis number.

COMING FOR 2024

As previously reported, the Mustang Dark Horse will produce maximums of 373kW and 566Nm from its naturally aspirated 5.0-litre Coyote V8, making it not only the most powerful model in the 2024 range, but also the most powerful non-Shelby production Mustang ever.

While the 2024 Mustang Dark Horse is due to go on sale in the US in the second half of this year, an Australian release date, along with local pricing, remains unconfirmed.

THEMES ANNOUNCED FOR 2023 HISTORIC WINTON

Details have been released for this year's Historic Winton, with the 46th edition of the all-historic motorsport and motoring event to be held at Winton Motor Raceway on 27–28 May.

Presented by the Austin 7 Club Inc., in association with Historic Motorcycle Racing Association of Victoria (HMRAV), the 46th Historic Winton will feature two days of historic motorsport action across a range of classes.

More than 40 races over the weekend include Group J & K, Groups M & O, Groups Q & R Sports and Racing, Group Lb Sports and Racing, Formula Ford, Group N, Group S and Regularity, along with historic motorcycle and sidecar races.

"We are thrilled to be back again with another weekend of fun for all the family," said Austin 7 Club Inc, President Len Kerwood. "This historic race meet has been around for so long now that we are seeing third and fourth generations competing and attending, as well as quite a lot of first-timers."

Off-track, the popular heritage displays will mark a number of automotive anniversaries this year, including 120 years of the Ford Motor Company, Buick and Harley-Davidson, 100 years of MG, Triumph cars and BMW motorcycles, 75 years of Land Rover, the Citroen 2CV, Morris Minor and Porsche 356, 70 years of the MG Magnette, Triumph TR2 and Sunbeam Alpine, and 60 years of the Chevrolet Corvette.

On the Aussie anniversaries, 2023 marks 70 years of the FJ Holden and first Redex Trial, 60 years of the EH Holden and Lightburn Zeta and 50 years of the Leyland P76.

Owners of vehicles covering all the marque, model and event anniversaries being celebrated this year are invited to bring their vehicle to Winton for display in the paddock, with the chance to take part in the Sunday Parade on the circuit.

Participation in the Sunday Parade is by invitation only, with invites placed on the windscreens of selected vehicles on the Sunday morning of the event, so get there early for your chance to do a lap or two of Winton Motor Raceway.

Parade participants are selected based on criteria that includes the number of vehicles in the specific anniversary group, rarity and presentation.

The Benalla Historic Vehicle Tour, a lead-up event for past runnings of Historic Winton, was still TBC for this year at time of writing. For updates on this regional tour that's usually held on the Friday before the Historic Winton weekend, go to **www.historicwinton.org**, or follow Historic Winton on Facebook.

Tickets for this year's Historic Winton are now available and start at $40/person per day when pre-purchased online through **www.ticketebo.com.au/historicwinton**. Tickets at the gate start at $45/person per day, with kids under 17 admitted FREE. Two-day tickets are also available, with camping on-site from $20/person per night.

For updates, more info on ticketing and other details on the 46th Historic Winton, go to: **www.historicwinton.org**

2023 TARGA TASMANIA POSTPONED

This year's Targa Tasmania has officially been rescheduled, with the tarmac rally to now be held in late October, instead of its traditional date in April.

The new date is due to the findings of the 'Targa Review Panel' that was appointed by Motorsport Australia in the wake of a competitor fatality at the 2022 Targa Tasmania (and three deaths in 2021) considered unlikely to be complete in time for the event to go ahead in its usual slot.

Even if the results of MA's review were released soon, there would be very little time to implement the recommendations, so postponing Australia's premier tarmac rally for six months made the most sense.

"It is disappointing to have to postpone our iconic event, but the reality is that we have no alternative given that Motorsport Australia has not yet released the report," said Targa Australia CEO, Mark Perry in a statement released on 22 February.

"We are committed to working with all parties on the various challenges that lay ahead, with a view to a return of Targa at Targa Great Barrier Reef from September 1 to 3, with the flagship Targa Tasmania to follow from October 23 to 28, seven weeks later," Perry concluded.

Updates on the rescheduled Targa Tasmania and 2023 calendar can be found at: **targa.com.au**

Mustang Movement

Mobil
Chevron
Griffs American Auto Parts & Restorations
MUSTANG

Classic Mustang sales, parts and restoration specialists have got their business on the market.

PHOTOS Griffs American Auto Parts & Restorations

Rarely in life do you get the opportunity to combine your passion with your profession, but if your passion is classic cars – particularly classic Mustangs – just such an opportunity is now available, as the owners of Griffs American Auto Parts & Restorations have decided to sell their business.

Regular readers of JUST CARS will be familiar with Griffs, as they've been advertisers for more than a decade. While they're based in Ballarat (in regional Victoria), Griffs has customers for their Mustang parts from all over Australia and New Zealand, as well as customers looking to purchase their first (and sometimes second, third or fourth!) Mustang.

The restoration side of Griffs has been a big part of the business, also, and it was through restos that the founders, brothers Chris and Tim Griffin, turned their shared hobby for classic cars into a successful business.

However, retirement is on the horizon for the pair, so they've decided now is the time to sell Griffs American Auto Parts & Restorations, ideally to someone who's as enthusiastic about serving the classic Mustang community as they've been for the past 15+ years.

TURNING A HOBBY INTO A BUSINESS

Griffs American Auto Parts & Restorations officially opened in 2007, but founders Chris and Tim Griffin have a history with cars going back much further. Both bought and restored their first classics as teenagers, then served long tenures in the automotive and related industries: Chris in the service department of Ballarat Toyota for more than two decades; and Tim as a toolmaker and engineer at various businesses, including Ford Australia's Geelong Plant and Harwood Engineering in Ballarat.

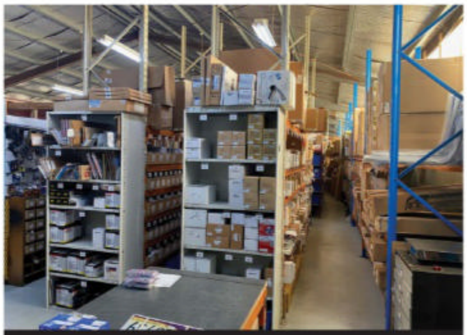
After buying and restoring several cars himself, Chris's first "client build" – a Mustang convertible with Shelby touches - saw him bring Tim in to help. The time spent together on this project went a long way to convincing the brothers that they could turn what had been a hobby – importing and restoring classic Mustangs and supplying spare parts for same - into a business.

Griffs American Auto Parts & Restorations is structured like a new car dealership, with classic car sales, Mustang parts sales and a restoration shop all on site.

Griffs
Mustang Sales
Spare Parts
Restorations
www.griffs.com.au

After opening in late 2007, rapid expansion of the business saw Griffs move into these larger premises in 2010.

While restorations and car sales at the business covers a range of classics, parts supply is for 1965-73 Mustangs exclusively.



Parts store carries around 5,000 line items in a fully computerised inventory, all of which can be ordered online, with shipping throughout Australia and overseas.

It took some time and assistance to start the business from scratch, but Griffin Brothers Pty ltd, trading as Griffs American Auto Parts and Restorations, officially came into being in July, 2007, with the doors of a 500 square metre site in Delacombe (on the fringe of Ballarat) opening in December of the same year.

RAPID GROWTH

Great word of mouth from those early customers and advertising in national magazines like JUST CARS saw the business soon expand.

By mid-2008, the brothers had secured an LMCT to sell cars and a USA car shipping service and customer loyalty programme was added.

The restoration projects were rolling in, too, so it wasn't long before the Delacombe premises proved to be too small, leading to a relocation to the current 850 square metre site at Wendouree in 2010.

MUSTANG SPECIALISTS

While Griffs' restoration projects and car sales have covered many makes and models, the focus has always been on Mustangs, especially with the parts sales.

Initially, the parts inventory covered 65-70 models only, but Chris said customer demand saw 71-73 Mustang parts added, thus covering the full spread of first-generation Mustang production.

There's now somewhere in the region of 5,000 line items available through the Griffs online store. As some of these parts are transferable to other Ford family models, including Mercury Cougars and Aussie Falcons, Griffs are able to service these customers, as well as owners of early Mustangs.

When it comes to popularity, first-generation Mustangs are *THE* classic car and a favourite with enthusiasts, so there's no shortage of customers. Go to any classic car show and you're sure to see a Mustang or three, while the Mustang Owners Club Australia is one of the largest in the country, with over 2,500 members in Victoria alone.

Chris adds that, since the Gen 6 Mustang's arrival here as a factory RHD model, they've received an abundance of requests from customers wanting Gen 1 Mustangs.

Almost 3 million Mustangs were built over the 1964 ½ to 1973 period, so there's a near-limitless supply of cars available. There's also an entire industry devoted to reproduction parts - everything from badges to complete replacement bodies.

This all means that, not only will the next owner of Griffs have a good customer base thanks to the Mustang's ongoing popularity, but also the cars and parts supply to keep those customers happy.

THE RIGHT FIT

With its car sales, parts sales and restoration shop, Chris explains that Griffs American Auto Parts & Restorations is structured similarly to a new car dealership, so someone with experience in this area would be able to slot into the business fairly easily.

Unlike the new car market, the competition isn't as ferocious with classic cars and the margins aren't as razor thin, so someone who's a smart operator and understands the value of customer service should do well.

While good business acumen is key, Chris says that someone with an interest in classic cars in general and classic Mustangs specifically would be the best fit for the business. In an "enthusiast" market like this, passion can't be underestimated and would certainly be a plus.

There's potential for expansion, too. The existing showroom allows for up to seven cars to be displayed at any one time, but with larger premises (or possibly dropping the restorations), the new owner could store and sell more cars, with the same applying to the parts inventory, as Chris says there is potential to expand this area.

The restoration side of the business in important, though, as there's currently more than a dozen cars on the go and a waiting list for new projects of more than twelve months.

BUSINESS BENEFITS

Across the three key elements of Griffs – car sales, parts sales and restorations – there's an enviable client base, with many repeat customers for their restorations and classic car sales.

Restoration shop employs three full time staff, with specialty services all available in Ballarat. Around a dozen projects are on the go at any one time, with the quality of Griiffs' work seeing a waiting list of around 12 months for new projects.

If the new owner needs time to adapt, Tim, Chris and Chris's wife Wendy (who handles everything in the background) would be prepared to stay on for a period after the handover. The three-man full-time restoration team at Griffs are all locals, so they could all stay on if the business remains in Ballarat.

On the resto side of things, all specialty services (work that can't be done on-site at Griffs) are available in Ballarat, so that saves time as outsourced elements can be completed locally.

Griffs is actively involved in local car shows and also supports car clubs in the region; something that's been great for the business's reputation.

The final point that should be noted is Griffs' location. Being outside of the major cities, Ballarat avoids sky-high rent and other costs, while still being big enough to have all the automotive-related specialty services that a business like this requires. Of course, the online parts store means Ballarat is no barrier to supplying Mustang parts throughout Australia and overseas.

Ballarat also has the school options, medical facilities and all the other services a young or growing family needs, but with the benefits of a more relaxed, regional lifestyle.

To simplify, here are some of the positives this business offers.

- Established and operating successfully for 15 years
- Customers (including many repeat customers) throughout Australia & NZ
- US parts/car supply chain in place
- Fully computerised/located spare parts inventory
- Fully active website for car sales and online parts sales
- Gen1 Mustang specialists (one of the most popular models, ensuring ongoing business)
- Shipping and customs assistance available for OS car buyers
- Overseas travel opportunities (US car/parts buying trips)
- Regular car shows in region and beyond (to promote business and attract customers)
- Regional location business benefits (big city conveniences without big city prices)
- Regional location lifestyle benefits (away from big city, but with all amenities)

FIND OUT MORE

Griffs American Auto Parts & Restorations has been operating successfully for more than 15 years. Chris and Tim see no reason for this to change under new owners.

To find out more, see the advert below, call Owen Mitchell on **0419 900 271**, or Chris Griffin on **(03) 5338 2427**.

Car sales side of Griffs has a regular turnover and covers a variety of US classics.

Griffs has been active at car shows and related events in Ballarat and other central Victorian locations since they started.

Business For Sale

CLASSIC & MUSCLE CAR DEALERSHIP

Spare Parts Store and Restoration shop for Australian & American Classic & Muscle Cars. Long established and known Australia wide for the quality of restorations and range of spare parts carried.
Very profitable, extensively documented with live computerised stock and MYOB accounting.

Owners are not tradespeople and are involved in administration and sales only.

PRICE $695,000 PSAV

Cooly ROCKS ON FESTIVAL
Cooly ROCKS ON FESTIVAL

Get Ready to Rock On

Cooly Rocks On returns this 7-11 June, so now is the time to get your tickets and get ready for a five-day celebration of the motors, music and lifestyle of yesteryear.

PHOTOS Courtesy of Cooly Rocks On

After a record crowd in 2022 – more than 136,000 - and over 900 vehicles on display, Cooly Rocks On is ready to go bigger and better in 2023, with this year's festival locked in for 7 – 11 June.

Australia's favourite nostalgia festival, Cooly Rocks On celebrates the motors, music and lifestyle of yesteryear, with Coolangatta's beachfront the hub for all that makes this festival great, from the live rockabilly, rock 'n' roll and swing music, to the Ultimate Elvis Tribute Artist Contest, Pin-up Pageant, market stalls - and a whole lot of cars.

"This year's festival is going to be bigger and better than ever with five international acts invited to perform, as well as dozens of acts from across the country filling the streets with the sound and energy we have become famous for," said Major Events Gold Coast Director of Festivals and Events, Mark Duckworth.

"If you're all about '50s, '60s and '70s music then get ready to step back in time with our curated lineup of legendary artists at Cooly Rocks On in 2023."

Supported by the Queensland Government, via Tourism and Events Queensland, Cooly Rocks On is a feature on the It's Live! In Queensland events calendar.

THE MUSIC

- ***Live Music every day***
- ***More than two dozen artists***
- ***Two free outdoor stages***
- ***Ultimate Elvis Tribute Artist Contest***

Some of the best rock 'n' roll, rockabilly, swing and Elvis Tribute artists from around the country and beyond will turn back the clock to the golden era of the '50s, '60s and '70s.

Amongst the artists locked in for this year's Cooly Rocks On, the headliners are Swedish rockabilly veterans, The Go Getters, who'll be making their first appearance in Australia in more than a decade. Johnny Pandora from Japan and Boom! Boom! Deluxe from New Zealand keep the international rockabilly theme going.

Aussie artists on the bill include fan favourites The Rechords, Lucky Seven (who'll also play at the Moonlight Swing Dance), 'Princess of Rockabilly' Cherry Divine, Jake and the Cadillacs, Kenny and the Nitro Rockers, The Pacific Belles, Itchy Fingers, Swingabilly Ray, The Rockafellas, Peaches & The Alphasonics, Melody Graves and The Hokum Redemption, The Lucky Comets, Way Out West, The Tri-Tones and more.

Between live shows, DJ Jukebox Jimmy and DJ Lori Lee will keep the platters spinning, while Issi Dye will present his Legends of Rock 'n' Roll show.

For Elvis fans, Jimmy Holmes and Mark Andrew present: The King Returns to Stage '68-'72, but this year's big coup is the inclusion of Shawn Klush from the USA. Regarded as the best Elvis Tribute Artist in the world and named the first

Two Car Runs are on the 2023 Cooly Rocks On programme: one to SEVEN82MOTORS in Nerang; the other to Balter Brewing in Currumbin.

ever ‘Ultimate Elvis Tribute Artist’ by Elvis Presley Enterprises, Shawn will make his first appearance in Australia in five years at Cooly Rocks On.

“Shawn tours extensively around the world performing to sold out shows,” said Duckworth. “For Elvis fans, it doesn’t get much better than this.”

Cooly Rocks On will also host one of only two Ultimate Elvis Tribute Artist Contests in Australia, with the three-round competition (8 to 11 June) seeing the winner go to Elvis Week in Memphis, Tennessee, representing Cooly Rocks On.

Held in the Elvis Marquee on the Coolangatta beachfront, the Ultimate Elvis Tribute Artist Contest is a ticketed event, accessed with a VIP Legends Pass, gold or silver ticket. Shawn Klush’s live show, along with The King Returns to Stage ’68-’72, are also ticketed.

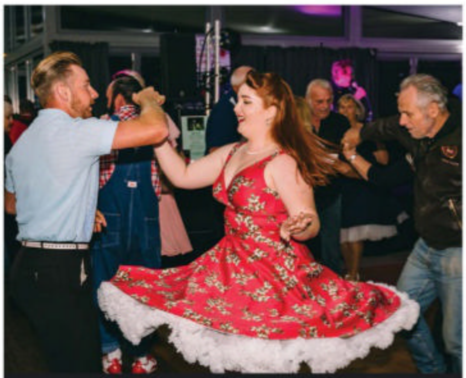
If the sounds of surf-themed rock ‘n’ roll are more your style, The Australian Beach Boys Show will bring all the hits from the iconic American group to Cooly Rocks On and is also a ticketed event.

THE CARS

- ***Show ‘N’ Shine***
- ***Early Bird Show ‘N’ Shine***
- ***Kustomville and Goodwin Park Display***
- ***Two Car Runs travelling to SEVEN82MOTORS and Balter Brewing***

For revheads, Cooly Rocks On is heaven on earth, with the huge display of classic cars, hot rods, lowriders and more (pre-1979) on Saturday, 10 June and Sunday, 11 June spread over almost two kilometres of Coolangatta.

Live music brings the ‘rock’ (and rockabilly!) to Cooly Rocks On 2023, with more than two dozen artists and DJs on the bill.



The Cooly Rocks On Moonlight Swing Dance will celebrate the iconic era of swing.

Last year, over 900 cars and motorcycles were on display, with even more expected this year.

Marine Parade will be the venue for Kustomville, bringing custom cars, hot rods and lead sleds together with lowbrow artists and kustom culture attractions.

Ongoing growth of the Show ‘N’ Shine at Cooly Rocks On led to the introduction of the ‘Early Bird Show ‘N’ Shine’, which was first held last year and returns for 2023, on Thursday, 8 June and Friday, 9 June.

If you want to do more with your car than just show it, two Car Runs are scheduled.

On Wednesday, 7 June (4:30PM – 8:00PM), the Gold Coast Muscle Car Club will host a cruise to SEVEN82MOTORS in Nerang for a special evening that includes tours of the 782 Garage, the grand opening of Big Benny’s Diner, the unveiling of their June auction consignments and more.

On Thursday 8 June (3:30PM – 6:30PM), join the ‘Car Run to Balter Brewing’ on the Gold Coast, where the taproom at the Currumbin brewery will be supplemented by local food trucks and live music for an afternoon of brews, bites and banter.

The Car Runs and Show ‘N’ Shine are ticketed events and entry numbers are limited, so head to **www.coolyrockson.com** for more information and to purchase your tickets.

THE LIFESTYLE

- ***Pin-up Pageant***
- ***Cooly Rocks On Moonlight Swing Dance***
- ***Market Stalls***

The Pin-up Pageant is one of Cooly Rocks On’s most popular features.

Cooly Rocks On will host the Ultimate Elvis Tribute Artist Contest, with the winner going to Elvis Week in Memphis.

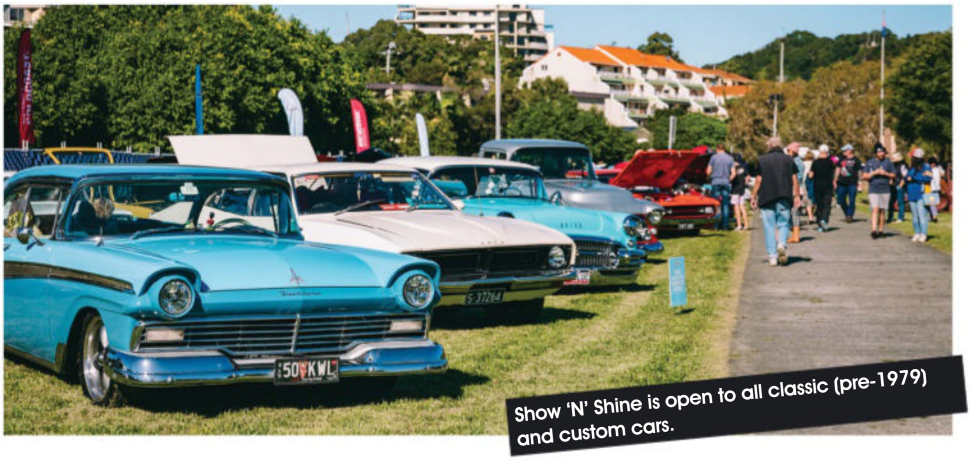
Cooly Rocks On wouldn’t be the festival it is without celebrating the lifestyle of yesteryear, and the Pin-up Pageant is a big part of that lifestyle, as well as a festival favourite.

Last year’s pageant attracted entrants from the USA and New Zealand. Entries for this year’s pageant opened in February.

The Pin-up Pageant, held at the Elvis Marquee on the Coolangatta beachfront, will see finalists compete over three rounds - day wear, evening wear and talent - for the title of 2023 Pin-Up Pageant winner, with awards for runner-up and Most Entertaining, too.

For those with dancing feet, the Cooly Rocks On Moonlight Swing Dance celebrates the iconic era of swing, with a complimentary glass of champagne on arrival and Lucky Seven providing the tunes.

Finally, the beachfront markets along the Coolangatta foreshore will present a vast range of retro goods, vintage merchandise and memorabilia from years gone by.



Show ‘N’ Shine is open to all classic (pre-1979) and custom cars.

FIND OUT MORE

Cooly Rocks On 2023 will be held from Wednesday, 7 June, to Sunday, 11 June.

Live music, activities and attractions will be happening every day, but some events are ticketed and have limited seating/availability.

LUXURY CARS

Classic Collection

Highly desirable Aussie muscle, as well as rare classic and vintage cars from around the world, will feature in two upcoming South Australian auctions.

WORDS Mike Ryan | **PHOTOS** Scammells Motoring & Collectables

Whether your motoring tastes swing toward classic or vintage, Australian or overseas cars, survivor or restored, there's something to tempt you in two upcoming auctions presented by Scammells Auctions in South Australia.

In JUST CARS' experience, some of the more intriguing and unusual classic, vintage and veteran cars, as well as the best-preserved, have come from South Australia. What's coming up with Scammells Auctions is no exception.

For their Collectable & Muscle Car Auction on 15 April, 2023, Scammells have secured an impressive and eclectic collection of cars from several SA family collections and deceased estates. High-profile Aussie muscle leads the way, with rarities from beyond our shores up for grabs, too.

1972 CHRYSLER VALIANT VH CHARGER R/T E49

Arguably the premier lot in the 15 April auction, this Charger is in the ultimate E49 spec, meaning it combines the high-performance Hemi 265 six with a four-speed manual transmission.

A genuine Charger R/T, this car's factory options include A87, A95, D56 and the all-important D20 and E49. D20 denoted a four-speed manual gearbox, while E49 meant a 'Competition' 265 Hemi six with the '6 Pack' induction set-up of three Weber twin-choke carbs and other engine improvements.

A lot of this was also on the Charter R/T E38, but that had a less powerful engine (210kW vs the E49's 226kW) and was only available with a three-speed gearbox, losing that all-important extra cog that Chrysler needed to challenge Ford and Holden at Bathurst.

This particular VH Charger R/T is described as one of only four built in Alpine White, making it far rarer than the Hemi Orange, Vitamin C, Hot Mustard and Magenta these cars are usually seen in.

Alpine White was a staple in Chrysler

This genuine E49 Charger R/T is said to be one of only four painted in Alpine White.

Fully restored 30 years ago, this Charger R/T still presents well.

This HQ Monaro GTS sedan served as family transportation for decades.

Australia's colour palette throughout the 1960s and early 1970s, but interestingly, 1972 – the year this car was built – would be its last, replaced with Arctic White from 1973. In this instance, the white paint has been matched to a black interior.

This car is believed to have spent most of its time in South Australia and comes to auction from the collection of a mature owner, who's had it for almost 40 years.

Subjected to a full, nut and bolt restoration by that same owner 30 years ago, this Charger presents well today, with the paint, factory option wheels, engine bay and interior still looking fresh.

Overall, VH Charger production totalled almost 18,000 units, but less than 1,300 were R/Ts and only around 150 of those had the E49 option. That makes this car rare already. Add in the Alpine White paint and it's even rarer.

Genuine Charger R/T E49s have sold for $250,000 and even $300,000 in the recent past, which means this example should comfortably meet its guiding range of $200-220,000, given its condition and rare factory paint.

Adding to this car's appeal are 'E49' registration plates, which will be included in the sale to an SA buyer.

1974 HOLDEN HQ MONARO GTS

After testing the public response to a four-door Monaro with the V8-powered, Belmont-based 'SS' in September, 1972, Holden made the Monaro available with an extra set of doors from March, 1973.

Fitted with the locally-developed and built 253 V8 as standard, but with 308 and 350 engines optional, the four-door Monaro would survive to the end of 1978 (albeit without the Monaro name), outliving its two-door sibling by a year.

Although close to 500,000 HQ Holdens were built, Monaro production was a small fraction of that and Monaro GTS production smaller again, but how many Monaro GTS sedans were built is unknown.

This example, a 6/74-built car in Aquamarine metallic with a Doeskin vinyl interior, was factory fitted with the 308 V8 and Trimatic auto, but provided documentation shows it received a new, factory-approved Holden replacement motor in August, 1975. A repaint followed sometime in the late 1970s.

Sourced from Mount Gambier and family owned for over 35 years, this HQ Monaro GTS had been used as a daily driver for much of that time and comes to auction in good condition, having been serviced regularly. Scammells' pre-auction estimate is $50-60,000.

Sandman's period custom interior remains in place.

A replacement engine just over a year after this Monaro was built in 1974 was followed with a respray in the late 1970s.

1978 HOLDEN HZ SANDMAN PANEL VAN

The Sandman panel van first appeared in 1974, combining GTS features with bold colours, distinctive decals and a sportier interior. Arriving at the tail end of HQ Series production, the Sandman would prove popular enough to be retained in Holden's lineup for the HJ, HX and HZ Series' that followed, with a ute version added, too.

That same popularity saw Chrysler respond with the 'Drifter' and Ford with the 'Sundowner,' both of which were built and marketed to the same "recreational" formula as the Sandman.

While this Sandman doesn't carry the signature 'XX7' code of units built at Acacia Ridge (it's an Elizabeth build), it appears to be the genuine article. The paint and cabin trim – Caribbean Turquoise and Chamois vinyl – are certainly authentic and the running gear appears to be the same 253 V8 and four-speed manual it was built with, too.

While the outside remains mostly stock, and the cabin likewise (with factory air conditioning and an aftermarket stereo the only notable additions), this Sandman's load area has been customised in the best 1970s tradition, with a full-length headliner,

ATLANTIC
Goodrich
SHELL
Perdriau
BOOK SHOP
HZ Sandman appears to be original and unrestored.

carriage lamps and velour trim on the walls, quilted fabric covers for the storage boxes (including an Esky) along the sides, a plush floor lining and a pass-through to the cabin separated by curtains.

Unrestored, but used regularly and described as a much-loved vehicle, this Sandman's pre-auction estimate is $40-45,000.

1976 HOLDEN HX LE COUPE

As a farewell to the two-door Monaro, Holden released the 'LE' in 1976. With no Monaro identification inside or out, the LE (for Limited Edition), reflected the mood of the market at this time, with features and trim that were more about luxury than performance.

Only 580 units were built, all at GM-H's Pagewood plant and all with a 308 V8 and three-speed automatic transmission. Every LE was finished in Limited Edition Red Metallic with gold pinstriping and gold 'honeycomb' alloy wheels, while the quad headlight front clip from the Premier was in the style of the Monaro LS.

Interior fitout was on a par with a Statesman, including power windows, tinted glass, air conditioning, a push-button radio and 8-track player. Cinnabar (dark red) vinyl and velour trim with plaid inserts on the seats was standard, along with a GTS dash and steering wheel, power antenna, power steering and power front disc brakes.

This HX LE was purchased by the current owners in 1997 from the Mount Barker area, with the intention to restore the car as a father-and-son project. That didn't proceed, so the car remains as bought. The exterior and interior are believed to be original and the 137,788km on the odometer likely to be accurate, too.

After being on the outer in terms of collectability, the LE has found a growing audience in recent years, with prices increasing accordingly. Scammells' guiding range for this example is $80-90,000.

Coming from the same family as the HQ Monaro, HZ Sandman and HX LE is another Holden in the form of a 1970 HG Kingswood station wagon. A two-owner vehicle from new, this car has been with the family for 30 years and still wears its original Kashmir White over Aegean Aqua paint, along with its original Antique Saddle vinyl trim. Pre-auction estimate is $25-30,000.

1970 ISO LELE

Following the Rivolta and Grifo, the Lele was the third and last of Iso's GT cars (the Fidia was a saloon), arriving in 1969 and remaining in production until the Italian firm's bankruptcy in 1974.

Essentially a replacement for the Rivolta that had been launched in 1962, the Lele (sometimes referred to as a Rivolta Lele) featured 2+2 seating and styling by Bertone's Marcello Gandini that included semi-hooded headlights, like the Alfa Romeo Montreal and Lamborghini Jarama (both of which were also styled by Gandini).

Like past Iso GTs, the Lele was powered by a Chev 5.4-litre (327ci) V8 as standard, backed by either a 4-speed manual, 5-speed manual or 3-speed auto gearbox.

HX LE was bought 25 years ago as a restoration project that didn't proceed.

Complete and running, this factory RHD Iso Lele is the fourth unit built and very rare in Australia.

XB Falcon GT is a genuine, matching numbers example, with a refurbished exterior and original interior.

From 1972, the Lele would be fitted with a Ford 5.8-litre (351ci) V8 and Ford or ZF transmissions due to a dispute with GM.

Other Lele features included Campagnolo 'Elektron' alloys and inboard disc brakes all round, while air con, power windows, an AM/FM cassette radio, leather upholstery and timber trim were all standard.

Aussie Touring Car legend Norm Beechey owned a Lele, which like this example, is one of the few built in RHD. Lele production totalled around 300 (sources vary), of which RHD numbers are few and only one is believed to have been delivered to Australia new – car #5.

The car going to auction is #4 and was formerly owned for a long period by an SA doctor. With low mileage (6,424km on the odometer), this very rare Italian GT is complete and running, but would benefit from recommissioning or a full restoration if the next owner intends to drive it regularly.

This 1970 Lele has a pre-auction estimate of $40-45,000.

ALSO ON OFFER

Other cars consigned for Scammells' April auction include a 1974 XB Falcon GT sedan that's described as a genuine, matching numbers GT with an original interior and restored exterior (estimate $80-90,000), a 2017 Holden VF Commodore SS ute in white with factory alloys and hard tonneau (estimate $40-45,000) and an unrestored C1962 VW Karmann Ghia convertible (estimate $40-45,000).

There's also a C1970 Mazda 1300 Super Deluxe that's a former *Fast Fours & Rotaries* feature car. The original 1.3-litre inline four engine has been replaced by a 13B rotary, with custom induction and exhaust, improved cooling and other tweaks, but the car still looks stock on the outside. Inside, aftermarket gauges and a JVC stereo upgrade are amongst the few variations from factory. Estimate on this modified classic is $35-40,000.

APRIL AUCTION

While Scammells Collectable & Muscle Car auction is scheduled for 15 April (selling from 10:00AM in-house and online on the day), pre-bids can be lodged now.

To register for bidding, see more photos and find out more details on every lot in this auction, go to: **scammellauctions.com.au**

Early 1970s Mazda 1300 has been modified with a performance 13B rotary, aftermarket gauges and modern stereo.

VINTAGE AUCTION IN MAY

While there's a lot to be excited about in the April auction, Scammells are offering some more special vehicles in May that are sure to appeal to discerning and passionate collectors.

Cars from the 'Vinall and Sanders Collection' include a restored Vauxhall 30/98 and Isotta Fraschini Tipo 8 as the headline lots, with Delage, Minerva, Bentley, Austin and others included.

VAUXHALL 30/98

Back when Vauxhall was a premium sporting marque, the 30/98 was the ultimate expression of that, with performance to match or better anything that Bentley, Sunbeam or Alvis could offer, and priced accordingly.

Just under 600 30/98 chassis were produced between 1913 and 1927 and the example to be auctioned by Scammells has been fully restored, in the four-door tourer style with a bare metal finish on the body and red mudguards.

ISOTTA FRASCHINI TIPO 8

Just as rare as the Vauxhall but even more exotic is the Isotta Fraschini. Italy's Rolls-Royce, Isotta Fraschini was founded in Milan in 1900 and would be the first carmaker to offer a straight eight engine. Their 'Tipo 8' model debuted in 1919 and would remain in production, in improved and enlarged 7.4-litre '8A' and '8B' form, until 1934.

The C1923 example going to auction is from the first generation (chassis #237), so has a 6.0-litre engine. Most likely one of the handful of these premium cars sold new in Australia in the early 1920s, #237 has been restored and wears a four-door touring body typical of the period.

Full details on these cars and the others will be released prior to the auction on 20 May. For more information, go to: **scammellauctions.com.au**

A REGAL RIDE

When Daimler wanted to get a little sporty, they started with this…

WORDS Mike Ryan | **PHOTOS** Classic Motor Studio

As a marque, Daimler has always been connected to prestige and luxury, but on a few occasions, they dipped their toes in the sporting market, too, and the DB18 Special Sports of the late 1940s and early '50s was one of those occasions.

Daimler occupies something of a weird space in the automotive industry. It still exists as a company, but as a car brand, Daimler's been dormant for almost 15 years. When Ford bought Jaguar in 2009 (who had bought Daimler in 1960), they shuttered the Daimler brand, ending a lineage that went all the way back to the dawn of the automobile industry.

Even in those earliest days, Daimler was a premium brand; a perception enhanced by the British Royal Family issuing the Royal Warrant in 1902, meaning Daimler was authorised to provide motor vehicles to the monarchy.

That association started with King Edward VII (when he was still the Prince of Wales) in 1900 and would continue through successive monarchs into the 1950s, when Rolls-Royce became the Royal Family's vehicle of choice.

Within that 50-year period, Daimler produced a bewildering array of models – probably too many, leading to the range being pared back on occasion.

A STOPGAP SAVIOUR

The early 1930s was one of those occasions, fuelled by plummeting new car sales in the wake of The Great Depression.

While cutting some models, Daimler also introduced a new one in 1933 - the 'Fifteen' - which was a smaller, lighter and cheaper model, although these are all relative terms when talking about a Daimler.

Where previous Daimlers had been powered by large sixes or V12s, the Fifteen introduced a new 1.7-litre six that was also the first Daimler engine to use overhead valves, replacing the sleeve-valve type that had been in use since 1909. Producing around 40hp in its original form, that engine would be enlarged to 2.0 litres a year later, then 2.5 litres in 1938, by which time output had increased to 70hp.

Only 608 examples of the DB18 Special Sports were built, most with Barker bodies like this one.

As a car for the "private sector" (ie., owner drivers, not those being chauffeured), the Fifteen was a success for Daimler, so little changed with the follow-up model, the DB18.

Introduced in 1939, the DB18 used the same engine, was of the same dimensions and similar to the Fifteen in many other ways, but featured improvements in several areas and was also a little quicker.

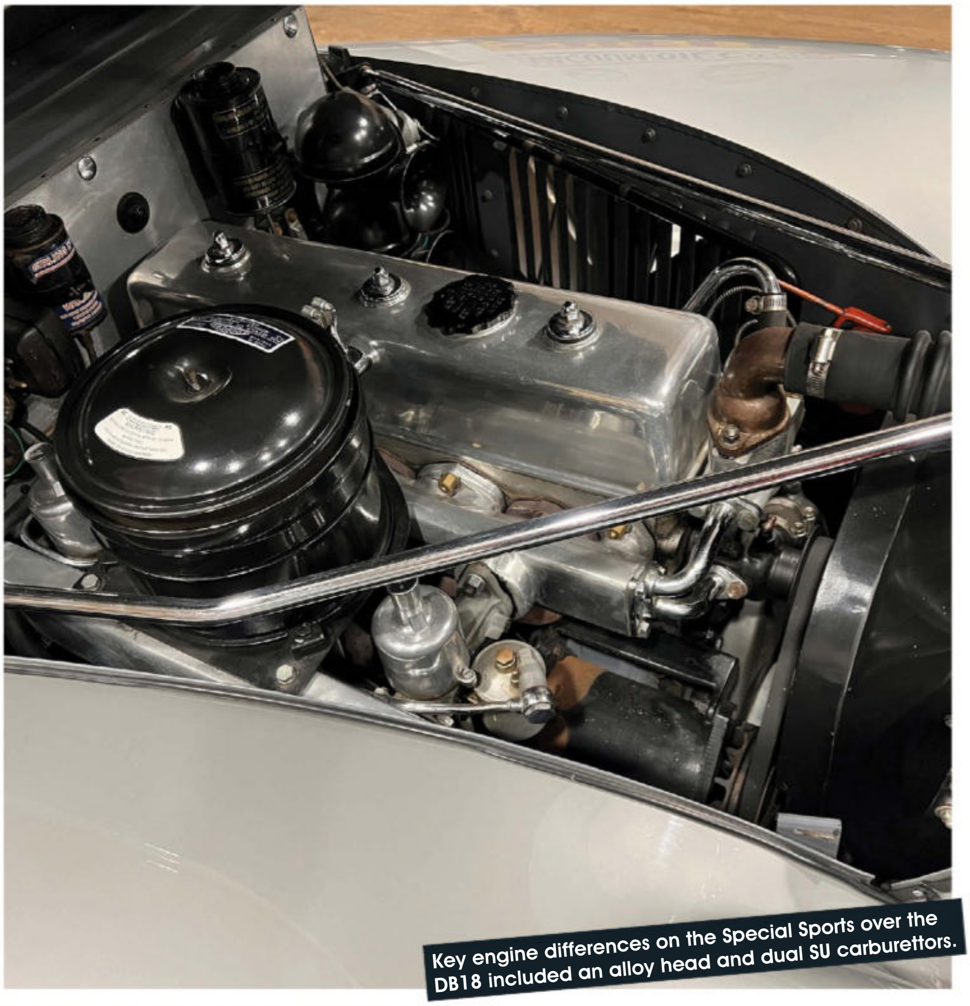
Only a handful of DB18s would be built before the onset of World War II, which saw Daimler transition to war production, like every other British carmaker. During that time, Daimler built 4x4 scout cars like the 'Dingo', along with armoured cars. As the Dingo used the same engine as the DB18, it gave Daimler engineers the opportunity to further refine it over the course of the war.

DB RETURNS

The ink was barely dry on Japan's document of unconditional surrender in September, 1945, when Daimler announced they'd be recommencing car production, starting with the DB18 for the owner-driver, while the larger and more opulent DE27 and DE36 limousines would cater to Daimler's traditional customer base.

Post-war, the DB18 range was rationalised down to two body styles: a four-door sedan and two-door drophead coupe (aka convertible). Mulliners would body the former and Tickford the latter, although a few were bodied by others, including Daimler's in-house coachbuilders, Barker and Hooper.

Mixing the innovative with the archaic, the DB18 had independent front suspension, automatic chassis lubrication and a built-in jacking system for wheel changes, but the brakes were still rod actuated and the diff still a worm-type drive.



Key engine differences on the Special Sports over the DB18 included an alloy head and dual SU carburettors.

Well-appointed interior includes timber dash trim, leather seats and full carpeting.

The transmission was of the "semi-automatic" Wilson pre-selector type that Daimler had first offered on their cars in 1930. Although it eliminated the need to match engine speed with manual shifting in the pre-synchromesh era, the pre-selector still required gear changing, as the transmission wasn't a true automatic in the sense we know today.

A QUESTION OF SPORT

The popularity of sports cars in the immediate postwar years grew rapidly and Daimler wasn't the only carmaker to notice.

Small, light and nimble cars, like the MG T Series, found favour with servicemen during the war, particularly Americans, who took these lithe sports cars back home to the US after the end of hostilities and fuelled a market that would eventually spawn a homegrown equivalent in the Chevrolet Corvette.

While some Daimlers were quick, they weren't sports cars, and the market wasn't considered big enough - yet - to develop and release an entirely new model, so the compromise was the 'Special Sports'.

Introduced in 1948, the Special Sports used a mildly modified version of the DB18 chassis and much of that model's other mechanical parts, including brakes that had been upgraded to hydro-mechanical actuation by this point.

The engine was the same 2.5-litre six as the DB18, at least in its bottom end, but the Special Sports added an alloy head with larger valves and twin carb induction instead of a single carb.

Compared to the DB18's 70hp peak, the DB18 Special Sports maxed out at 85hp, with the resulting increase in top speed from 72mph (115km/h) to around 85mph (135km/h) and an improvement in 0-100km/h acceleration of around 5 seconds. However, 24 seconds to hit the 100km/h mark could hardly be called sporty. A higher diff ratio allowed the extra power to be used and an overdrive was added to the pre-selector transmission, essentially making it a four-speed.

Pre-selector gearbox with a fluid flywheel was a halfway house between a conventional manual and fully automatic transmission.

The other defining feature on the DB18 Special Sports was its coachwork. Only available as a drophead coupe, styling was more svelte compared to the DB18 drophead, with headlights faired into front guards that flowed back along the length of the body into rear guards that formed a curvaceous tail. Rear wheel spats were standard, along with suicide doors, while the signature Daimler grille with its ribbed surround was angled back to enhance the flowing lines.

Rear seat and can be positioned to face either left or right.

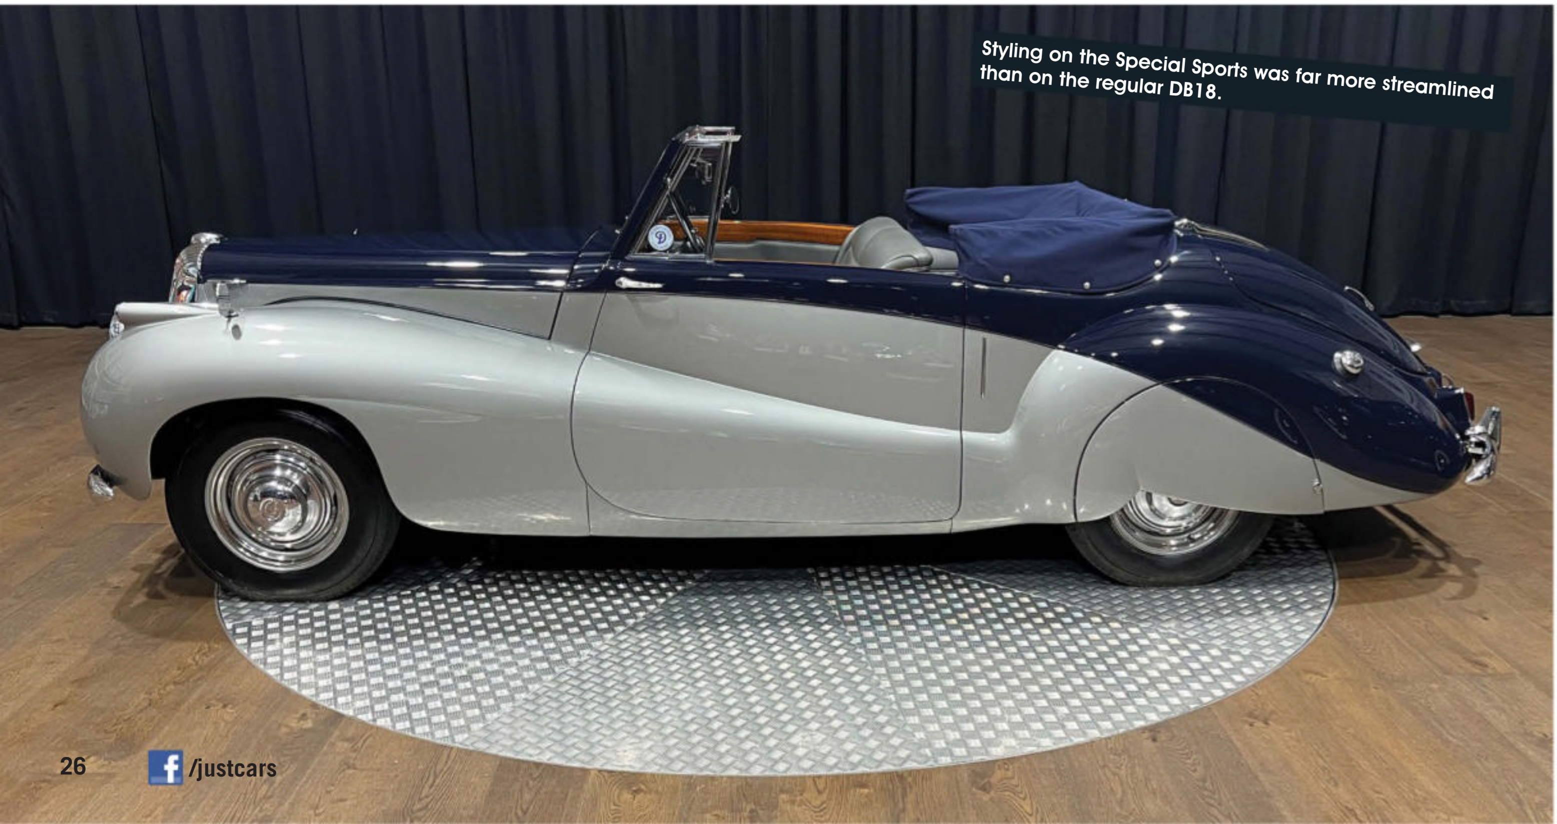
Two-tone paint was standard, usually with a dark-over-light treatment, although the reverse of this and single colour versions have been seen. Virtually all the bodies were produced by Barker, using aluminium panels over an ash frame, although the front guards, screen surround and some of the door internals were steel.

The handful of exceptions to the Barker bodies were produced by Hooper to a design that was even more streamlined and reminiscent of the grand coachbuilt exotics of the 1930s, where the Barker bodies resembled an enlarged Jaguar XK140, especially when seen in profile.

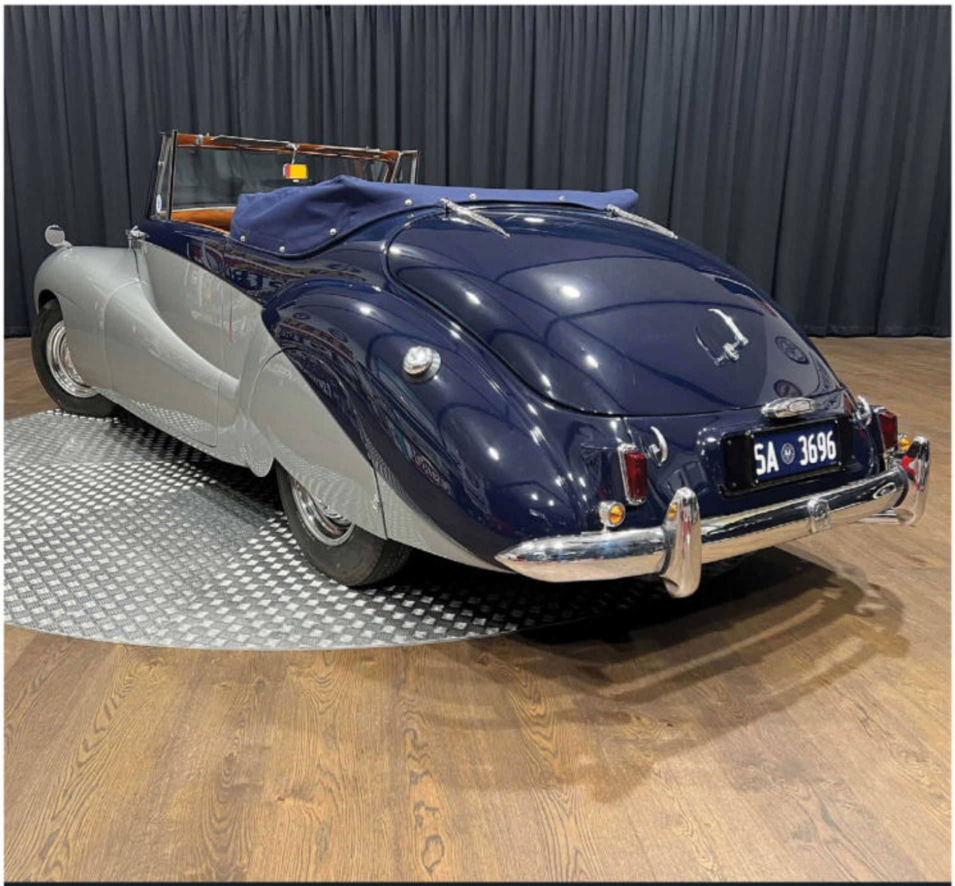
Inside, the DB18 Special Sports featured carpeted floors, leather seats and timber on the dash and door cappings. A heater was standard and instruments were arranged centrally, meaning left- and right-hand drive production could be accommodated easily, although it seems the vast majority of Special Sports built were only sold in Britain and "the Colonies".

A quirk of the interior is that it offered seating for three, with the rear seat at a right angle to those ahead. This sideways seat could be positioned to face the left or right, or removed entirely to increase luggage capacity.

While based heavily on the DB18, the Special Sports cost double the price when new. They were only ever intended as a niche model, though, and something of a 'toe in the water' of the sports car market,



Styling on the Special Sports was far more streamlined than on the regular DB18.



In the case of the DB18 Special Sports, the “Sports” in the model name referred more to the body style than the car’s performance.

FOR SALE

On consignment with Classic Motor Studio in Mount Barker, South Australia, this 1951 Daimler DB18 Special Sports would have to be one of the best examples of the model in Australia and certainly the best example for sale.

Fully restored over a decade ago, the car is said to still be in exceptional condition, despite the consignor covering over 5,500 miles (8,850km) since the restoration was completed.

The 2.5 six can reach highway speeds easily, but is most at ease in the 80-90km/h range. The pre-selector gearbox may take a little getting used to, but is part of this car’s appeal.

With its English style, refinements inside and out, smooth ride and quirky features like the pre-selector and sideways rear seat, the Special Sports is a cruiser with a difference,

Pricing on this car has recently been reduced to **$79,500**.

For more details, see the listing online at **www.justcars.com.au** with the ad code **JACFD5249051**, or contact Classic Motor Studio on **0407 788 296**.

so overall production of 608 units from 1948 to 1953 (compared to 3,395 of the standard DB18) was a good result.

When Daimler replaced the DB18 with the ‘Conquest’ model in 1953, they also released the ‘Century Roadster’ to continue the lineage set by the DB18 Special Sports, but this was no sports car, ether, and it wouldn’t be until 1959 that the first true Daimler sports car arrived in the form of the SP250, aka the Daimler Dart.

WELL RESTORED, WELL REWARDED

The 1951 Daimler DB18 Special Sports featured is a two-owner unit that was sold new in South Australia in 1952 and has resided in Victoria since 1999.

Between 2006 and 2010, the car was comprehensively restored by Victorian-based specialists, including an engine rebuild by Motor Improvements in Cheltenham and a full interior re-trim by Design Auto Interiors in Bayswater, while the repaint in Westminster Blue over Silver Grey was done by Black Edge Auto Body in Bayswater. Matching this is a manually folding soft top in blue.

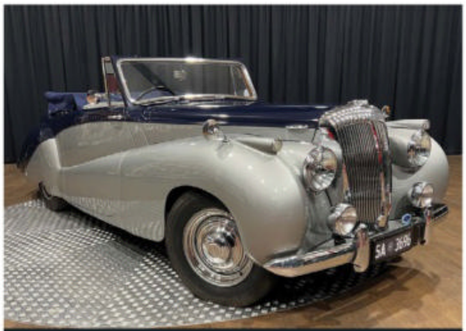
Following completion of the restoration, this Special Sports secured three trophies at the 2011 Daimler Lanchester Club Victoria Display Day (including People’s Choice and Pursuit of Excellence), then another triple trophy haul at the 2012 Daimler National Rally, including the coveted National Rally Champion.

More trophies were achieved at the 2014 Daimler National Rally, 2017 Daimler Lanchester Club Victoria Display Day, 2018 Daimler National Rally and 2018 Flinders Motoring Heritage Day, after which the owner stopped entering the car for judging.

Currently on consignment with Classic Motor Studio (CMS) in South Australia, the haul of trophies this Daimler DB18 Special Sports has achieved speaks to the quality of the restoration, while Matt White of CMS describes it as the best example he’s seen and far superior to another example he previously sold.

In the new millennium motoring environment, Daimlers are something of a quirky choice. Put that down to them not being visible in the modern market. They’re a special marque, though, offering luxuries on a par with Bentley and Rolls-Royce, but without the ostentation.

Something refined, for an equally refined owner, the DB18 Special Sports also offers the novelty of the pre-selector transmission, so if you’re after something elegant, a bit sporty and a little bit different, this car may be ideal.



Fully restored over a five-year period, this car has been a multiple trophy winner since.

SUPER SANDOWN STARTER

HTCAV season 2023 kicked off with a dynamic Ford v GM battle at Sandown for Round 1 of the Victorian State Circuit Racing Championship.

WORDS Chris Ralph **PHOTOS** Phil Wisewould

The JUST CARS Historic Touring Cars opened their 2023 account at Sandown on 18-19 February as part of the Vic State Circuit Racing Championship. After a heatwave Friday practice session, great weather favoured a weekend of excellent Historic Touring Car action.

The famed suburban Melbourne power circuit was in its element with an entry dominated by V8s - Ford's finest versus a gaggle of cars from 'The General'. There were 12 of the former, made up of Mustangs and Cortinas, while the six GM representatives, consisted of Chev Camaros, a Nova and lone Holden LJ Torana six

QUALIFYING

Although Andrew Lane was complaining about a slight misfire, his sleek black Mustang Fastback not unexpectedly grabbed pole with a handy 1.21.52 – but the rest of the qualy podium was interesting…

Last time, we told the story of the 'Warhorse Mustang,' one of the original Group Nc cars, that changed hands late last year from the Leo family to the Collins stable. Dom Leo would get the Collins Camaro, while Darren Collins took on the Trans Am Mustang. With them both on the grid this meeting, how would they fare?

Darren and Dom slotted into P2 and P3, with only a tenth between them as both learned their new mounts. Joe Calleja

Geoff Munday overshoots Sandown's Turn 1. . . despite his 'CAUTION' licence plate!

Kim Shearn's ex-WA Lotus Cortina blew a head gasket in qualifying.

qualified fourth in his Fastback Mustang, while reigning Club Champ Pete Meuleman was an excellent fifth in the Nb Mustang, dipping into the 1.24s for the first time.

Next best was Geoff Munday's Camaro, then Andrew Girvan's bright green LJ Torana and ex-engine builder and Ute racer David Murphy, having his first run in the ex-Gary Treloar big block Camaro. Filling out the top ten were a returning Brent Trengrove in his Camaro and Rob van Stokrom, debuting his new '68 Trans Am Mustang - a huge step up from his previous BMW 2002.

Just outside the top ten, Bill Trengrove (father of Brent) qualified ahead of a group of Cortinas that included Simon Browning, Mick Stupka and Don Knight.

Engine problems saw four old warriors fail to proceed beyond qualy – the Nb Mustang of Darren Jones, Chev Nova of Rod Evans, Lotus Cortina of Kim Shearn and pushrod Cortina of Jerry Lenstra.

In a first for the State Race Series, events would be 'time certain' at this round, with the stopwatch, not lap counter, determining race length.

New gold accents on the ex-Collins, now-Leo Camaro looked great, but the big Chev had a suspect oil pump drive.

Joe Calleja's Fastback spits flame to ward off Brent Trengrove's Camaro and Pete Meuleman's Mustang.

Andrew Girvan's immaculate Torana punched well above its weight, finishing ahead of some of the V8s on each occasion.

RACE 1 - SATURDAY AFTERNOON DRAMA

For the first HTCAV race of 2023, Collins got the initial jump, but Lane was first into T1. Leo was shuffled back in the pack, but the big mover was Murphy out of eighth, using every last one of his Camaro's 6,800 cubic centimetres to slot into third. Collins would fall prey to Murphy, then Leo, the latter showing he was getting to know his new Camaro very well.

Once Leo got past Collins, he set about chasing Murphy, with both setting fastest laps along the way. Behind Collins, the trio of Brent Trengrove, Calleja and Meuleman were going well, gapping the Girvan Torana.

Drama ensued when Murphy popped a right rear wheel cylinder just when he needed it most – heading into T1 at the end of Sandown's front straight. Experience saved the situation as he ran wide, then motored calmly to save track position for the next race, only to DNF anyway.

Leo's elevation to P2 was short-lived as his Camaro rolled to a stop with a fuel issue at the top of the circuit, returning Collins to the place he'd had at the start of the race.

Behind the winning Lane and runner-up Collins, Brent Trengrove was third, while off the podium, Meuleman led home Calleja, Girvan and Munday.

After years in a BMW, Rob van Stokrom had got a handle on the Trans Am Mustang by Race 3.

Darren Collins, now in a Mustang after several seasons in a Camaro, led for three laps in Race 2 before the Long Brake Pedal Blues played in.

Don Knight was the best of the Cortina class, finishing ahead of his contemporaries in all three races.

RACE 2 - SUNDAY MORNING TIGHT RACING

Murphy, Race 1's big mover, extended his rear-of-grid handicap in Race 2 by stalling the Camaro and giving himself a monster catch-up job – which he did in very short order.

Collins again got the initial jump before settling for second into T1, but tigering away at the back of Lane paid dividends when the big black Fastback faltered out of Dandenong Road on Lap 3. Collins grabbed a lead he would hold for the next three laps before a long brake pedal saw him slightly overshoot that same corner, allowing Lane to take back P1 sharply.

Leo's Camaro retired with a suspect oil pump drive on Lap 3, while Murphy was up into fourth by Lap 5. However, grabbing the leading – and distant - trio of Lane, Collins and Trengrove was not on.

The mid-pack resolved into Munday's Camaro, Meuleman's Nb Mustang, the fantastic Torana of Girvan, Calleja's Fastback and the 69 Trans Am of van Stokrom, with Bill Trengrove's Nb Mustang as rearguard.

Amongst the Cortinas, Don Knight repeated his performance from Race 1, this time holding sway over Simon Browning (who'd started off the back after a wayward bonnet forced him to DNF in R1), while Mick Stupka's engine refused to rev out and he finished a lap down.

Lane took the chequer ahead of Collins and Brent Trengrove, while Murphy was a close fourth and Munday further back in fifth.

RACE 3 – AFTERNOON BOIL OVER

Murphy looked menacing in P4, but it was again Lane who led the field into T1 for

the final Touring Car race of the meeting. Two Mustangs held the advantage over three Camaros, but only briefly, as the 6.8 litre big block of Murphy grunted past Collins into T1 on the first tour, then set about after Lane.

Murphy's move to the lead came after the third lap with a big push down the inside of T1. Lane decreased the amount of available track, but Murphy kept insisting on a pass, taking to the ripple strip. Inevitably there was contact, Lane spun and Murphy found Darren Collins glued to his tail, with Brent Trengrove's Camaro just astern.

Behind them, there was a battle pack of Calleja, Meuleman, an on-pace van Stokrom, Bill Trengrove and the gallant Torana of Girvan.

Having to work his way back through the field, it wasn't long before a fired-up Lane caught Bill Trengrove, just as Calleja's iffy gearbox cried enough.

On Lap 5 it was Murphy, Collins and Brent Trengrove out in front, with a gap to Munday's Camaro. Brent was trying everything to catch Collins's Mustang and had closed right up on the last lap before getting woolly at Dandenong Road.

Lane made an almighty lunge into the same corner to take Meuleman for fifth. Getting the hang of his new steed, van Stokrom was next, finishing ahead of the fast-finishing Girvan and Bill Trengrove. Knight again won the Cortina battle, although Browning got a slightly faster lap time.

After looking like he'd take a win all weekend, Murphy finally did so in the third and last race for the Historic Tourers. Collins collected three seconds and Brent Trengrove left Sandown delighted with his third place finishes after a sabbatical from racing.

NEXT, THE CLASSIC...

The biggest historic meeting of the year is the Phillip Island Classic Festival of Motorsport. The JUST CARS historic tourers fielded 80 cars in two full-capacity class grids at this mega event, the full report on which you can read in the next JUST CARS.

1971 FORD FALCON XY GT REPLICA SEDAN $185,000

In the hero colour of Vermillion Fire with all GT striping, badging, spotlights, Shaker, 5 slot wheels with brand new Aquatread red wall tyres, vacuum tank and rev limiter. The seats have been retrimmed, new door trims, new crash pad, centre console and genuine steering wheel and looks just as it should. A brand new 351 4V Cleveland motor punching out over 600 horsepower gets this beautiful XY moving along effortlessly. The Top Loader four speed gearbox and the 9-inch diff have both been rebuilt too. Every suspension component has been replaced or reconditioned with the addition of all the correct stamps and marking which result to an immaculate undercarriage. Now available by appointment only in our Kogarah facility or do not hesitate to contact one of our friendly staff via phone or email for more information. #C519

1969 DODGE CHARGER R/T COUPE $165,000

This genuine 1969 Dodge Charger R/T would have to be the true definition of a muscle car. Featuring a factory fitted 440 cubic inch big block V8 engine backed up by a heavy duty three speed automatic transmission. The endless lines of the hardtop body are covered in beautiful Cream paintwork by a complimentary factory fitted black vinyl top, black R/T striping and badgework and genuine R/T wheels. The interior in the Charger is all to factory specifications also and in impeccable condition. This example was ordered with other factory options such as air conditioning, left hand remote mirror and tinted glass. It also comes with its original broadcast sheet and import paperwork. Now available by appointment only in our Kogarah facility or do not hesitate to contact one of our friendly staff via phone or email for more information. #C518

1969 FORD MUSTANG SHELBY GT500 COUPE $165,000

Restorers dream! This 1969 Ford Mustang Shelby GT500 is fresh out of a barn & ripe for restoration to put back to its former glory. Having originally left the factory in Pastel Grey as you can see the car has been repainted in red at some stage of its life. Current owner of 25 years plus. The interior is mostly original and untouched but has had an aftermarket stereo fitted. Lurking under the hood is the mammoth 428 Cobra Jet big block engine with matching number and is backed by a four speed Top Loader. Although the car originally came with a C6 auto and 3.1 9" rear end. Odometer reads just over 63,000 miles and the Shelby starts, runs and stops for anyone who wanted to make the car roadworthy as is and enjoy it now. Now available by appointment only in our Kogarah facility or do not hesitate to contact one of our friendly staff via phone or email for more information. #C524

1975 FORD TD CORTINA XLE SEDAN $52,000

One for the collector!! This beautiful 1975 Ford TD Cortina XLE must be seen to be believed. Anyone who knows their Fords would know that to find another Cortina XLE in unmolested condition like this would be extremely hard to find. This car is stunning and without modifications. The car is finished in original Polar White and matched perfectly with the beige vinyl roof, all the original XLE badging, moulds, and lastly the original XLE hubcaps. Further to this is the original XLE interior that is also all original and in excellent condition. Period correct accessories such as mudflaps and a rear venetian blind have been added. Also included with the car is a New Old Stock logbook, sales brochure, workshop manual and radio manual. Now available by appointment only in our Kogarah facility or do not hesitate to contact one of our friendly staff via phone or email for more information. #C522

1986 HOLDEN VL GROUP A REPLICA SEDAN $98,000

This beautiful Holden VL Group A replica has it all. The stunning bright red paint work grabs your eye and is in terrific condition. The Group A spoilers, bonnet scoop, decals and huge 20-inch MOMO star wheels that make this car really pop. The interior is also in terrific condition and replicates a genuinely car perfectly with thanks to front Scheel seats and a MOMO steering wheel. Powering this VL is an LS1 Chev V8 motor which was rebuilt 2500 kilometres ago. Backing the engine up is a six-speed manual transmission from a VY Commodore and a reconditioned Tru Trac rear end. Fully engineered and currently on full New South Wales registration. Now available by appointment only in our Kogarah facility or do not hesitate to contact one of our friendly staff via phone or email for more information. #C514

2021 SUBARU IMPREZA STI FINAL EDITION $110,000

2021 Subaru Impreza Final Edition EJ25. This example finished in WR Blue Pearl is in brand new condition. A super collectable car and an absolute must for any car collection. It is build number 32 of 75 made and comes complete with its original logbook and other associated items just as you would expect. Now available by appointment only in our Kogarah facility or do not hesitate to contact one of our friendly staff via phone or email for more information. #C495

ENGINE OVERHEATING? TRIED EVERYTHING?
IS RUST AND CALCIUM SCALE THE CAUSE?
THIS KIT CAN FIX THAT!

PETER MAHER
The person behind the chemistry of Liquid Intelligence

HOW TO FIX ENGINE OVERHEATING

We recommend you have a look at Liquid Intelligence 239 Radiator and Block Cleaning Kit. Liquid Intelligence 239 Part A is the business end of the kit. It's a concentrated organic cleaner that is designed to dissolve and break down insulating build ups of ferrous and mineral scale. And it will do it safely without reacting with or damaging aluminium, copper, brass, solder, cast iron, zinc alloys or any other component found in a cooling system.

The Part B is also an important part of the cleaning process. It's a strong neutralized alkaline soap based cleaner that flushes the cooling system of impurities and waste materials and prepares it for the coolant to be then added.

Engine Block & Radiator BEFORE Liquid Intelligence 239

The image taken with a fibre optic camera shows deep rust and calcium deposits in the water jacket and radiator of an older vehicle. These deposits can decrease cooling system efficiency and cause engine overheating.

Engine Block & Radiator AFTER Liquid Intelligence 239

Liquid Intelligence 239 dissolved the insulating layer of rust scale back to bare metal...allowing heat to pass unimpeded to the coolant...fixing the overheating problem.

LIQUID INTELLIGENCE 239 KIT COOLING SYSTEM CLEANER

✓ Completely dissolves rust & calcium scale

✓ Strong, non corrosive safe organic formula

✓ Australian made 100% guaranteed

You can call Peter for a chat about product and application information or simply to purchase Liquid Intelligence 7am to 7pm seven days a week

1966 FORD MUSTANG 3 SP AUTOMATIC 2D FASTBACK 2+2 C-code powered by a 4.7L 289cui V8 Ford Windsor engine and driven by a C4 3-spd floor-shift automatic trans. Rust free Californian car, p/steer, pwr assisted brakes 'Wilwood' 4-Wheel disc brakes, cowl hood, Torque Thrust, 15" alloy wheels. This is a Californian car and an awesome example of the iconic Mustang 2+2 Fastback pony breed. IN STOCK. #FORD047 $84,900

1970 FORD TORINO GT 2D SPORTSROOF COUPE. Powered by a 5.8L 351cui-4V V8 Ford Cleveland small block engine and driven by a FMX 3-speed column-shift automatic transmission through a Ford 9" differential. Talk about a cool optioned Torino! This one was born a true GT with the Shaker hood scoop and a 4-barrel Cleveland engine. Originally it was Ford Red with the corresponding Red interior. It was repainted years ago in Raven Black which shows quite nicely, although we would classify it as a 10 footer. Big 15" Magnum 500 wheels have been added and really set the car off. Perhaps the biggest & most desirable optional feature was the addition of the hide-away headlights & a Mercury 'Cyclone' dashboard, which are very popular & valuable custom options on these cars. A standout car with room to tinker!! IN STOCK. #0H35M122877 #FORD061 $65,900

1965 FORD THUNDERBIRD LANDAU 3 SP AUTOMATIC 2D HARDTOP. Powered by a 7.0L 428cui V8 Ford 'FE-series' big block engine matched to a C6 3-spd column-shift automatic transmission and driven through a Ford 9" rear differential. The car presents very well, and due to its dry climate heritage is rust free. It has seen two (2) repaints in its life; the first to Red and the second more recently back to its original factory colour of Medium Silver Mink Metallic. There are minor scratches and paint blemishes here and there, but overall in very good condition. The powertrain runs strong and features some recent updates including a new distributor & coil, Edelbrock carburetor & air cleaner, new dual exhaust system and fuel tank. A lovely throaty Bird in great condition. IN STOCK. #FORD068 $44,900

1966 FORD FAIRLANE GT 4 SP MANUAL 2D COUPE. Powered by a rebuilt 6.4L 390cui-4v V8 Ford 'Fe-series' big block engine and driven by a 4-speed Toploader floor-shift manual transmission. The body is very straight and rock solid with a repaint in Wimbledon White approximately twenty years ago. This car drives great and is a real head turner on the road. It makes for a good weekend car show exhibitor! IN STOCK. #FORD057 $79,900

1963 FORD FUTURA 4 SP MANUAL 2D CONVERTIBLE. Powered by a 2.8L 170cui 'Special' 6-cyl Ford engine and driven by a factory 4-spd floor-shift manual trans. This is a Rare Futura Convertible that presents in very good original condition. We believe this to be a number's matching drivetrain in this car, and it is a very solid car in original condition, apart from a repaint some years ago. Floors, frame & trunk are very solid. In fact, the floorpans have been professionally replaced not that long ago, and an underside protective coating has been applied. Both the glass and brightwork are good. You will find the typical stone chips, small dents, minor rust bubbling and paint blemishes in some places. The car runs, drives and stops very nicely. IN STOCK. #FORD065 $33,900

1957 CHEVROLET BEL-AIR 3 SP AUTOMATIC 2-DR POST HARDTOP. Powered by a 5.7L 350cui V8 GM Chev small block engine matched to a THM350 3-speed floor-shift automatic transmission and driven through a Ford 9" rear differential. This car has seen a recent repaint in Hot Rod Matte Black, which accentuates the chrome trim nicely. It has been very nicely restored both inside and out with the interior now showing powered front Dark Grey leather bucket seats with headrests. On the underside the frame rails, floor pans and trunk are all in great shape and very solid. This is a very solid car which is showing a recent restoration, runs strong, includes many options and is turn key ready to enjoy. If you are a Hot Rodder or Weekend Cruiser, then this car should interest you!! ARRIVING SOON. #CHEV052 $83,900

1964 FORD FALCON SPRINT 4 SP MANUAL 2D COUPE. Powered by a 4.7L 289cui-4v V8 Ford Windsor small block engine and driven by a 4-speed floor-shift manual transmission. This is a VERY RARE True Falcon Sprint that looks absolutely gorgeous in Black Cherry Metallic paint. It has an excellent running 'Cobra' 5-Bolt 289cui-4v rebuilt engine with a T-10 4-Speed manual trans. Other features incl a Edelbrock 4-barrel carburettor, Shelby Cobra aluminium intake, mild street cam, aluminium radiator, traction bars, dual exhaust, factory folding bucket seats w/ centre console & much more. This is a SHOW condition car. IN STOCK. #FORD058 $88,800

1965 FORD MUSTANG 3 SP AUTOMATIC 2D COUPE. Powered by a 200cui 6-cyl inline Ford engine and driven by a C4 3-speed console-shift auto trans. The car presents beautifully, and it has a recent repaint in Candy Apple Red which simply glows having just been freshly wet-sanded and polished, and the finish is deep and rich. Lots of fresh bright trim, emblems, bumpers, etc. Just a quick look inside and you will find fresh upholstery done in a custom mix of Black Pony seat upholstery and Red trim. The floor pans and frame rails are in good shape, with only some minor rust issues in the floor pans which has already been addressed. The car just has that look that makes you want to get in and cruise. IN STOCK. #FORD066 $39,900

1957 CHEVROLET BEL-AIR 2D POST HARDTOP. Powered by a 4.6L 283cui V8 GM Chevrolet 'Turbo-Fire' small block engine and driven by a GM PowerGlide 2-spd column-shift automatic trans. This car has seen a repaint in its original Chevy two tone colour of Sierra Gold & Adobe Beige. It has been beautifully restored both inside & out with the interior now showing matching new cloth/vinyl in the original colours of Black, Copper & Beige. This is not a fresh resto, but it does present very nicely. On the underside the frame rails, floor pans and trunk are all in good shape and very solid. The only rust repair left to be addressed at a later stage is in the rear wheel wells and rear spare tyre well seam. Overall a nice driver condition car with a little work left to do; but priced accordingly to complete the full restoration and not break the bank for a tri-five car. If you are looking for a classic car in very good condition, then it would be hard to go past this beauty. They don't get any more iconic than a '57 Chevy Bel Air 2-door V8! ARRIVING SOON. #CHEV053 $57,900

Inspections are by APPOINTMENT ONLY. **Unit 1, 4 Sagewick Place, Moss Vale. NSW.2577**

MAGNUM F

ALL NEW MAGNUM F™

Consider Your Old T-56 Obsolete! TREMEC releases the Magnum-F™6-speed for fourth-generation Camaros, Firebirds and Holden Commodores. The long-awaited and highly-anticipated F-car-specific version of TREMEC's popular Magnum 6-speed has finally arrived!

Designed to replace T-56 transmissions in our Commodores from VT2 through to VZ, the Magnum-F leverages TREMEC's pervasive TR-6060/Magnum architecture in order to provide fourth-gen enthusiasts significantly improved performance and relief from a shrinking pool of quality T-56 replacement parts. Born in the vacuum created by the release of the original T-56 Magnum (now known simply as 'Magnum') back in 2009, the Magnum-F fills a longstanding void in the overall Magnum line with regard to shifter locations, addressing not only LS1-powered '98-02 F-bodies, but several other applications that utilize a similar shifter position. Beneficiaries include third-generation F-bodies,LT1-powered fourth-gens, LS-swapped late models of all varieties, and sport compact applications such as A80 Supra's, FD RX-7s and more! Where the original Magnum shifter locations may prove too far forward, and the extended length Magnum XL's too far back, the Magnum-F's in-between position often proves to be just right. Inside, the Magnum-F benefits from the same durable componentry found in many of today's hardest hitting OEM muscle & sports cars. Over the T-56, the Magnum-F boast increased face-width on all gears, a robust combination of double and triple cone synchronizers, enhanced webbing in the maincase, provisions for a cooler circuit and more! TREMEC also took the opportunity to upgrade the shifter to an isolator type unit, like that found on its Magnum XL. The shifter reduces in-cabin noise and vibrations while at the same time providing the precise and communicative shift feel that all Magnum's are known for. And like all TREMEC aftermarket transmissions, the Magnum-F is made from 100%brand-new OEM-quality content and features a 12-month/12,000-mile warranty.

Save Thousands When Fixing Leaking Oil Seals & Gaskets

“MY PRODUCT IS THE ONLY ONE THAT IS 100% GUARANTEED TO WORK AND IS BACKED BY 7 DAY A WEEK TECHNICAL PHONE SUPPORT.”

PETER MAHER
The person behind the chemistry of Liquid Intelligence
1800 441 163

SAFELY FIXES LEAKING OIL SEALS & GASKETS ON VINTAGE, CLASSICS AND LATE MODEL VEHICLES
Here Are Just A Few Examples Of Where It Has Been Used Successfully

- ✓ Front & Rear Main Seals
- ✓ Auto Transmissions Seals
- ✓ Gear / Transfer Box Seals
- ✓ Valve Stem Seals
- ✓ Differential Seals
- ✓ Powersteering Seals
- ✓ Tappet Cover Seals
- ✓ Sump Seals
- ✓ Timming Chain Cover Seals
- ✓ Engine Seals & Gaskets
- ✓ Diff / Swivel Hub Seals
- ✓ Overdrive Seals

LIQUID INTELLIGENCE 230 “I GUARANTEE IT WILL WORK FOR YOU”

- ✓ Safely fixes dry leaking oil seals & gaskets for years
- ✓ This is the strongest oil leak fix you can get
- ✓ Made in AUSTRALIA & comes with my money back guarantee

Often these leaks go unchecked as the cost of replacing them is too high or you decide to “live with it”.

Revitalises All Seals & Gaskets, Including;
Styrene Butadiene Rubber (SBR), Nitrile Butadiene Rubber, NBR Nitrile, Buna-N, Polyacrylate, Polyacrylonitrile, Neoprene Rubber, FKM (Viton), Silicone, R.T.V Rubber Sealant, Cork/Rubber Combination

Liquid Intelligence 230 will work regardless of seal construction or material if the seals integrity is undamaged.

Normally a broken or cracked seal will leak profusely, whilst a worn, hardened or dried seal will just leave irritating puddles of oil under the vehicle or equipment after each use.

You can call Peter for a chat about product and application information or simply to purchase Liquid Intelligence 7am to 7pm seven days a week

1800 441 163 OR PURCHASE ONLINE www.liquidintelligence.com.au/230

RediStrip

Leader in the industry, over 20 years experience in Australia and 50 in the USA

- Unique Alkaline based stripping system.
- Electrostatic DE-RUSTing removes rust completely both inside box sections and pillars and outside surfaces.
- Expert handling and care - as your job is dipped there is no damaging, no rippling, etching or metal embrittlement.
- Can be treated with anti rust solution until ready for use.
- All ferrous and non ferrous metals from garden furniture to tanks, planes, cars, marine, earthmoving, farming, etc.
- 3 x 6 metre tanks - some of the largest in the business.
- Experts all agree a - **REDI STRIP** preparation is the ideal start to produce award winning results.
- We now do **VAPOUR BLASTING** - this process is used to clean up things like alloy manifolds and cast alloy parts in particular, bellhousings, pistons, alloy heads, etc to new finish.

Brad Keillor reviewed Fuel Doctors - 5★
15 March at 16:21
Ford Australia could not fix the ticking noise in my 2016 XLT ranger have been putting up with noise for 30k km and has been to ford dealer 5 times and has not been fixed. I have used fuel doctor for 3 tanks with initial heavy dose and the ticking has gone completely gone. Highly rate this product I now enjoy driving my Ranger again.

Fuel Doctor is multi faceted. Lubricity is one of those facets, by increasing your fuel's lubricity you have decreased the metal to metal contact that was making the noise

Do not replace your fuel pump or injectors until you have called the Fuel Doctor on 0412-211-777.

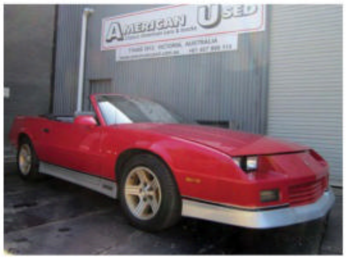
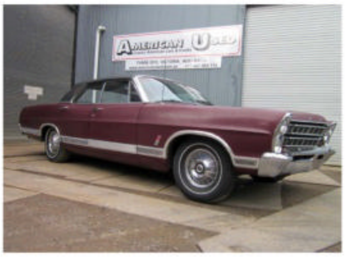
54 Mornington Tyabb Rd, Tyabb, Victoria, 3913

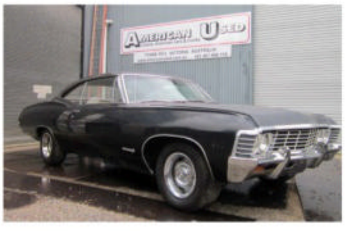


1988 CHEVROLET CAMARO IROCZ CONVERTIBLE RHD. Decent clean dead stock Camaro, low kms, good paint with minor blemishes, no rust issues. Very clean Grey factory cloth trim, 305/auto car that runs and drives very well. Convertible top showing its age but still usable. New fuel pump and battery. Believed to have been previous NSW rego. Part of a deceased estate. **IN STOCK. SN# S1519** **PRICED AT $22,750**

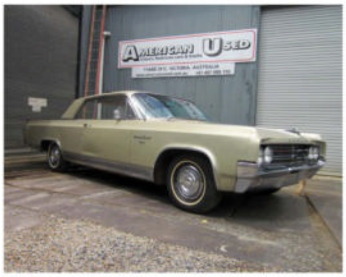


1967 FORD GALAXIE LTD 4 DOOR HARD TOP 390 AUTO LHD. Clean straight big block Galaxie, decent body minor pinhole rust only. Factory black trim with wood grain inserts in decent shape. Excellent base for a family cruiser. **IN STOCK. SN#S1416**

PRICED AT $17,950

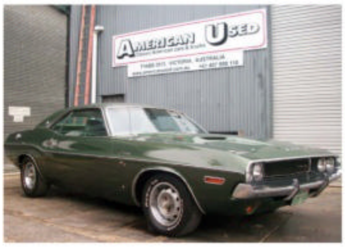


1967 CHEVROLET IMPALA SS 396 4 SPEED LHD COUPE. Decent project impala. Genuine SS 396 4 speed car faded Black paint work not original colour, signs of old body work repairs coming though on Quarter panels. Will require repairs to floor pans and boot floor, floor pans have been replaced at some stage but poorly done and now rusted through again. Frame and structure of the car looks decent with only surface rust visible. Bucket seat car with full SS gauge cluster trim is in average shape. Motor is period correct 396 unsure if its the original motor fires up and runs very well and is super strong. Car will definitely put a smile on your face performance wise car starts runs steers and stops well as can be expected for non boosted drum brakes. A great resto base or just tidy it up repair the floor and boot and drive around. **IN STOCK. SN# S1470** **PRICED AT $35,750**

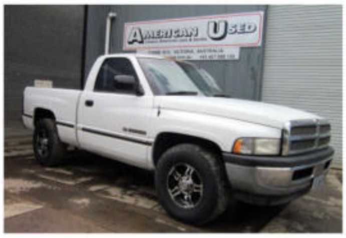


1963 OLDSMOBILE 98 2 DOOR HARDTOP LHD 394 AUTO. Very very nice original paint no rust survivor doctors car. immaculate chrome glass and stainless. Factory bucket seat console, taco car motor rebuilt brown original leather trim this car drives like the day it came of the line in 1963. **IN STOCK. SN#S309**

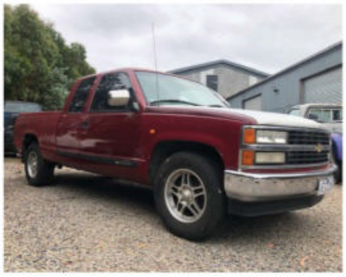
PRICED AT $33,750



1970 DODGE CHALLENGER RT SE 383 AUTO LHD. Clean rare original survivor car, one of very few built in Los Angeles. Clean straight body paint looks original with some areas have been touched up at some stage. Vinyl top car with some rust bubbles forming under the Vinyl roof is still solid. Original trim with the exception of carpets, driver seat will need repairs and head lining is starting to sag. Car fires up and runs, drives and stops without issue. Car will need some minor TLC to bring it up to roadworthy status however a very hard car to find in this unmolested condition, a great car to just clean up and enjoy without having to worry were you park it or drive it. **IN STOCK. SN#S1497** **PRICED AT $91,750**

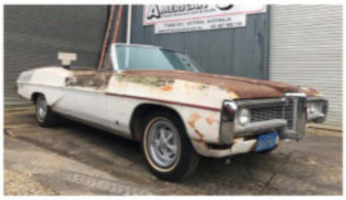


1996 DODGE RAM 1500 SINGLE CAB SPORT BED 318 AUTO LHD. Dry northern California truck faded white paint work with some peeling decent clean body no rust issues. Grey cloth trim in very clean, undamaged or torn condition. Truck fires up, runs, drives and stops well. Will clean to be a cool little truck one for the Mopar guys who don't have a pickup in their collection yet. Can be club registered once engineered in most states. **IN STOCK. SN#S1491** **PRICED AT $21,750**



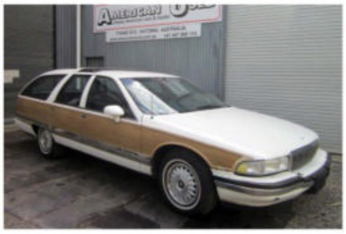
1989 CHEVROLET C2500 EXTRA CAB SHORT BED RHD PROJECT TRUCK. Decent Clean body faded peeling paint work no rust issues. Expired Vic reg. Interior could use a tidy up and clean and some dash repairs. 350-T700 Auto straight gas truck motor is in decent condition truck not running at present motor need accessories refitted to run. Fitted with tow hitch and canopy will clean up to be a great tow truck with some TLC. **IN STOCK. SN#1ET2MF**

PRICED AT $15,750



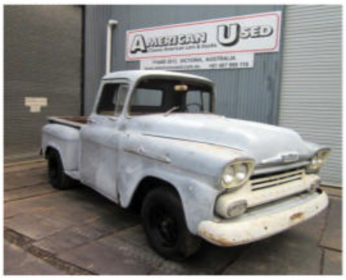
1968 PONTIAC BONNEVILLE CONVERTIBLE 400 / AUTO LHD. We have owned this car a number of years but never got around to finishing so it's time to let go. Northern Califorina car very minor rust only we have had the boot and floor pans repaired from pin hole rust. Little to no paint left on the car, minor damage to LH quarter panel the rest of the body is very good. The 400 fires up and runs well the car has newly powder coated Rally wheels with new tyres. We have newly recovered seats and door trims to go with the car (not Fitted) Will also need a new convertible top a very easy basic project for someone with the time to spend. **IN STOCK. SN#S1103**

PRICED AT $17,750

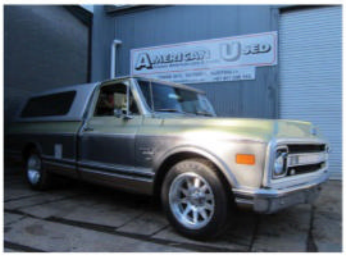


1994 BUICK ROADMASTER ESTATE WAGON ON 5.7 AUTO LHD. A very cool Buick wagon 5.7 auto decent body with some minor scratched and scrapes. Decent glass, chrome and stainless. Very clean blue velour trim. Fully optioned with moonroof. 5.7 Chevrolet Vortec Engine with Auto trans. Full 7 seater family Griswald trickster. A very cool sleeper, complete with the false plastic wood grain. **IN STOCK. SN#S1490**

PRICED AT $19,950

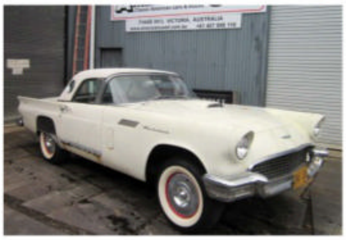


1958 CHEVROLET APACHE 3100 PICKUP LHD. Decent old project truck, light coat of primer over old green paint panel rust in floor, rear cab corners and lower A pillars the structure of the cab is solid. 283 Manual trans the motor turns over but not running. Comes with new rear cab lower patch panels. A solid start to a resto. **IN STOCK. SN#S1522** **PRICED AT $19,950**



1969 CHEVROLET C10 396 T400 LONG BED PICKUP. Clean dry truck, factory big block, will need some paint work on the LH side where there are primer patches. Clean factory trim needing carpets and a seat repair. Truck runs and drives very well and will be a very nice truck with some minor TLC. **IN STOCK. SN#S1467**

PRICED AT $29,950



1956 FORD THUNDERBIRD LHD NO MOTOR. Decent clean dead stock T bird project minor floor rust, lower rust in RH door spare door provided factory all there but trim in need of replacement. Transmission is with the car but no motor a perfect contender for a late model motor resto mod or a good base to restore to original . **IN STOCK. SN#S1496** **PRICED AT $25,750**

CARS IN TRANSIT **1967 FORD FAIRLANE 289 AUTO COUPE. 1968 CHEVROLET C10 LONG BED PATINA. 1978 PONTIAC TRANS AM PROJECT. 1964 FORD F100 STEPSIDE. 1987 CHEVROLET SUBURBAN. 1978 CHEV C10 SHOT BED FLEETSIDE. 1965 CHEVROLET IMPALA SS 327 AUTO. 1971 CHEVROLET CORVETTE COUPE.**

AUSTRALIAN LANCIA REGISTER The Australian Lancia Register is dedicated to tracking and helping to ensure the preservation of one of the most important automobile marques of all time. The Australian Lancia Register was formed without any formalities in 1970, in preparation for celebrations of the Lambda's 50th Birthday. The Lambda is particularly significant in the Australian Lancia scene with some 450 being sold new in the country, of which well over 100 survive today. The Register's major event is the biennial Castlemaine Rally, held in October of the odd years. This event attracts well over 100 Lancias with most models from the Kappa through to the Thema being represented. In addition to running the Castlemaine rallies, the Register publishes a Newsletter five or six times a year. We do not hold monthly meetings because our membership of about 250 is scattered across a country about the size of central Europe. Instead, members keep in touch through informal local networks, state clubs in Queensland and New South Wales, or with distant members with similar models. We also have some 30 overseas members. Events throughout the year published in the newsletter, AGM first Sunday in December. Contact Treasurer Michael Southgate 0405 452 500 or email treasurer@alr.org.au Website: www.facebook.comAustralianLanciaRegister PO Box 463, East Melbourne, VIC, 3002
